Compact four-pronged flame hider to effectively limit the light signature.

The **Strike Industries Cloak Flash Hider** in **.223 Rem / 5.56 NATO** effectively reduces **muzzle flash** thanks to its **four-pronged** design. Made of **45C steel** and featuring a **1/2"x28** thread, it improves shooting comfort in low light while offering excellent durability.

- **Brand: Strike Industries**
- **Model:** Cloak Flash Hider
- **Type:** Flame hider
- **Caliber: .223 Remington / 5.56 NATO**
- **Thread: 1/2"x28**
- **Material:** Machined 45C steel
- **Finish:** Black
- **Length:** 44 mm
- **Diameter:** 22 mm
- **Weight:** 57 g

Effective reduction of flash in the mouth

The **Strike Industries Cloak Flash Hider** was developed to effectively reduce the flash signature generated at the moment of firing. Its open, **four-pronged** geometry promotes rapid gas dispersion to limit visible combustion phenomena, especially during firing in low light.

An optimized design

More compact than the brand's Venom model, the **Cloak Flash Hider** features a larger diameter and an optimized design that allows for better gas flow. This design helps preserve the shooter's vision during successive shooting sessions and makes it easier to keep the target within the field of view.

Robust construction in 45C steel

Machined from **45C steel** , this flash hider offers excellent mechanical strength and durability. Its black finish provides effective protection against wear while perfectly integrating with modern platforms chambered in **.223 Remington** or **5.56 NATO** .

Simple installation

The flash hider mounts directly onto a barrel with a **1/2"x28 thread** , without any modifications to the firearm. A **crush washer** is included to facilitate proper indexing of the flash hider during installation.

Package contents

- 1 **Strike Industries Cloak Flash Hider**
- 1 Crush Washer puck

FAQ

What calibers is this flash hider designed for?

This model is designed for weapons chambered in .223 Remington and 5.56 NATO equipped with a 1/2"x28 threaded barrel.

Is the threading compatible with AR-15 platforms?

Yes, the 1/2"x28 thread corresponds to the standard used on many AR-15 platforms in .223 Remington / 5.56 NATO.

Are the mounting accessories included?

Yes, the flash hider comes with a Crush Washer washer allowing for proper installation.
