Enhanced accuracy thanks to a jacketed hollow point.

9x19mm precision cartridges with JHP bullets, designed for demanding shooters.

- Caliber: 9 mm Luger (9x19 mm)
- Bullet type: JHP (Jacketed Hollow Point)
- Bullet weight: 115 grains / 7.5 g
- Ballistic coefficient: 0.090
- Test barrel length: 150 mm
- Packaging: box of 50 cartridges
- Standard lead

Ideal for precision shooting on the range, these hollow-profile jacketed cartridges offer superior performance in terms of consistency and controlled penetration.

Increased precision and consistency

The **Jacketed Hollow Point** design features a front cavity that shifts mass toward the rear of the bullet. This internal rebalancing significantly improves flight stability, resulting in improved medium-range accuracy. The jacketed surface also ensures smooth feeding in most semi-automatic pistols and rifles.

- Test barrel length: 150 mm
- Standard lead
- Speed at 10 m: 355 m/s / 25 m: 335 m/s / 50 m: 319 m/s
- Energy at 10 m: 472 J / 25 m: 422 J / 50 m: 407 J

Optimal compatibility with modern weapons

Unlike lead-nosed hollow-core bullets, copper-jacketed JHP projectiles are much better tolerated by modern feed ramps. This significantly reduces misfires, while maintaining excellent piercing power.

Perfectly suited to the requirements of **sport shooters** seeking reliable, consistent and precise ammunition, these JHP cartridges embody GECO's historic expertise, recognized on shooting ranges around the world.
