Gold Limited Edition: A stand revolver combining precision, balance and controlled sensations.

The **Chiappa Rhino 60 DS Revolver** in **.357 Magnum** Limited Edition Gold offers a unique aesthetic and technical architecture dedicated to sport shooting. Its **low barrel** and aircraft alloy **frame** ensure control and comfort during range sessions.

- **caliber:** .357 Magnum
- **barrel length:** 6 inches (152 mm)
- **type of action:** double and single action
- **frame:** Ergal (aeronautical aluminum alloy)
- **sights:** adjustable
- **mounting:** 21mm Picatinny rail
- **accessories included:** 3 Moon Clips, screwdriver set, swab, polypropylene case

Low-positioned barrel

The **low-mounted barrel** aligns the barrel axis with the lower chamber of the cylinder rather than the upper chamber as in a conventional revolver. This bringing of the recoil axis closer to the hand reduces the torque at the start of the shot, limiting barrel rise and facilitating rapid return on target for close series.

Ergal (aeronautical aluminum alloy)

Ergal is an aluminum alloy used in aeronautics for its favorable stiffness/weight ratio. On the **frame** , it helps maintain a robust structure while reducing mass, improving balance and comfort during long shooting sessions.

Moon Clip

Moon Clips are loading rings that hold cartridges together for faster loading and ejection from the barrel. In competition, they reduce reloading time and simplify handling at high rates of fire.

Double & single action trigger

The dual-mode system features a **single-action** for a shorter, more precise trigger pull, and a **double-action** for a more direct shot from rest. This versatility allows the weapon's performance to be tailored to the shooter's demands and preferences.

- **total length:** 266 mm
- **weight:** 940 g
- **capacity:** 6 shots
