Rubber protective buckskins

The "MINI DEFEND BALL" is a rubber buckshot defense cartridge effective up to 15 meters that allows an incapacitating shot with your traditional weapon. This type of ammunition can neutralize an attacker by limiting the risk of injury or death.

In addition, the "MINI DEFEND BALL" will launch the alert and intimidate the attacker with its powerful detonation.

IMPORTANT - The use of "MINI DEFEND-BALL" elastomer bale cartridges with a defensive weapon or rifle must only be done in cases of force majeure and self-defense. Even if it is an incapacitating ammunition, it can lead to serious injuries especially at close range. It is strongly advised not to use this ammunition within 5 meters of the aggressor. The user is solely responsible for the handling and use of buckshot cartridges.

EN - Fire or projection hazard.

EN - WARNING - Keep out of reach of children. Wear glasses recommended. Do not use towards someone. Store in a dry place away from fire, sparks, sources of heat or ignition. Do not smoke near or when handling.
