A professional kit designed to last

The **Gun Boss® Pro Universal Cleaning Kit** meets the needs of discerning users who want a complete and reliable kit for maintaining their firearms. Its robust design is a superior alternative to entry-level kits thanks to its durable and precisely fitted components.

A practical and perfectly organized patented briefcase

Its patented vertical case is one of the kit's key features. Crush-resistant and designed to prevent accidental tipping, it keeps each accessory securely in place. Dedicated compartments allow for

immediate tool identification, while perforations also enable wall mounting on a workshop panel.

Compatible with a wide range of weapons

Thanks to its accessories covering calibers **from .22 to .45,** as well as **12 and 20 gauge shotguns** , this kit is suitable for handguns, rifles, and shotguns alike. The brass rods, extendable up to 32 inches, allow for effective maintenance on barrels of varying lengths while minimizing the risk of wear.

A smart multi-function handle

The ergonomic handle is not limited to simple cleaning. It incorporates a striking surface for removing certain pins, a rotating cleaning rod holder for easy tracking of the barrel's rifling, and a fixed support for more detailed cleaning operations. This design improves user comfort while saving time during maintenance.

Everything you need in one box

The kit includes phosphor bronze brushes, wool rifle brushes, several jags, patch holders, **8-32** threaded rods, and **50 cleaning patches** . The complete set allows for thorough maintenance of the barrel and main mechanical parts with a single piece of equipment.

FAQ

Which weapons are compatible with this cleaning kit?

The kit is compatible with handguns and rifles from .22 to .45 caliber as well as with 12 and 20 gauge shotguns.

Do the accessories use a standard thread?

Yes. All components are equipped with a standard 8-32 thread, compatible with many accessories on the market.

Is the kit suitable for regular use?

Yes. Its brass rods, quality cleaning rods and robust case have been designed for frequent weapon maintenance while ensuring excellent longevity.
