Ideal accessory for a safe and complete disassembly of your AR15

- An innovative, intuitive and easy-to-use product
- Allows the disassembly of 5 key elements of the AR15
- Overmolding so you don't lose your pins
- Magnetic bottom for retention of metal parts
- Easy to use with location for each component and recommended pin punch size engraved

The AR15 main locking system contains 5 key AR15 components in 8 different orientations to allow you to remove and install up to 13 different pins. The block is wrapped in an overmolding so that your AR15 parts do not slip. Clear, etched labels tell you which component fits where and what size punch you will need to remove pins. The biggest innovation is mounted inside - four strong magnets immediately grab any pin you drill and hold it securely to the block. It even includes storage for common size pins.
