A semi automatic rifle for medium and long range shooting.

The HERA ARMS 7SIX2 caliber .308 Win model has a 20" barrel with a 1/11" pitch with HERA CC compensator - 3 chambers, 21 mm picatinny rail on the entire Upper, M-LOK attachment system on the handguard. Magpul PRS stock adjustable in length and height.

Delivered in a secure ABS case branded "HERA ARMS", with a 10-round PMAG MAGPUL magazine, 5 safety levers offering no less than 25 configurations, as well as a set of custom-made "sport" type springs to MIL-SPEC standards

Rifle of high quality of manufacture, with a modern and avant-garde design.

Type AR10 operating by direct gas borrowing. HERA ARMS is one of the few companies to offer gas tubes that work tightly with the gas block.

The elements are machined at the HERA ARMS production site in Germany from 7075-T6 aluminum, with a final black Cerakote treatment, ensuring resistance to the elements and external aggressions.

Its imposing 20 "barrel with a 5 / 8x24 TPI thread, allowing the addition of a silencer, ensures increased range for the .308 Win ammunition.

The cylinder head of the 7SIX2 is subjected to multiple tests in order to detect any manufacturing defect or weakness of the metal, in accordance with military specifications: Magnetic treatment, shot peening, Nitrided.

Openwork handguard offering both weight gain and good heat dissipation from the barrel.

Its ergonomics as well as its comfort are ensured by the MAGPUL PRS stock which is adjustable in length and in height at the level of the cheek rest. It is recognized as the most advanced adjustable stock suitable for semi-automatic rifles.

Location for Quick Detach sling.

HERA ARMS pistol grip in polymer and injected fiber. This handle includes an internal compartment for storing batteries, cleaning kit, para - rope, tools, parts etc ...
