The high-precision gunsmith's vise designed for the maintenance, assembly, and customization of firearms.

The **Real Avid Master Gun Vise®** securely holds **rifles** , **shotguns** , and **handguns** thanks to its **Gun-Fit™** jaws and 360° articulation. Its **micrometric adjustment** and ability to withstand up to **100 ft-lb** make it the ideal tool for optics mounting, maintenance, and gunsmithing work.

- **Type:** Workbench gunsmith's vise
- **Compatibility:** Rifles, shotguns and handguns
- **Joint: 360°** rotation
- **Locking:** 8-position **Torq-Lok™** system
- **Maximum torque:** Up to **100 ft-lb**
- **Jaws:** Reversible **Gun-Fit™** with foam guards
- **Adjustment:** Micrometric leveling knob ±3°
- **Compatibility:** Smart-Assist™, Smart-Jaws®, Smart-Fit® and Lug-Lok™ (depending on equipment)
- **Mounting:** Workbench mounting

A true vise designed for weapons

The **Real Avid Master Gun Vise®** is the first true vise developed specifically for **gunsmithing** operations. Unlike conventional vises, it conforms to the different shapes of firearms to provide a perfectly adapted grip during cleaning, maintenance, accessory mounting, or customization.

A 360° joint for working from all angles

Thanks to its multidirectional articulated system, the vise allows for easy weapon orientation to suit the needs of each operation. The eight-position **Torq-Lok™** mechanism ensures an extremely rigid locking mechanism capable of withstanding operations requiring up to **100 ft-lb** of torque, such as certain assembly or disassembly operations.

Gun-Fit™ Jaws: Secure hold without marking the firearm

Gun-Fit™ reversible jaws provide excellent grip on a wide variety of barrel shapes, stocks, handguards, and rails. Their foam side effectively protects finishes, while their grooved side improves the retention of metal parts or technical components.

A valuable tool for mounting optics

The **Master Gun Vise®** incorporates an **Accu-Level™** leveling wheel allowing for micro-adjustments of ±3°. This feature greatly facilitates the precise alignment of a scope or red dot sight while keeping the weapon perfectly stable.

A scalable platform

Compatible with **Smart-Assist™** accessories, **Smart-Jaws®** , **Smart-Fit® Vise Block** and **Lug-Lok™** system (sold separately), this vise can evolve according to the user's needs and adapt to many maintenance or assembly operations.

Designed for enthusiasts and professionals alike

Its robust structure, stainless steel components, and ergonomic controls allow for maintenance, cleaning, and assembly operations with a level of comfort and precision rarely achieved. Whether in the workshop or on a dedicated workbench, it provides a particularly reliable working platform for all gunsmithing tasks.

FAQ

What types of weapons can be installed on the Master Gun Vise®?

The vise is designed to hold the majority of rifles, shotguns and handguns thanks to its adjustable and reversible Gun-Fit™ jaws.

Is the Master Gun Vise® suitable for mounting a scope?

Yes. Its Accu-Level™ dial allows for precise leveling of the weapon to facilitate the mounting and alignment of scopes or other optics.

Can other Real Avid accessories be added?

Yes. The Master Gun Vise® is compatible with the Smart-Assist™, Smart-Jaws®, Smart-Fit® and Lug-Lok™ systems, allowing its possibilities to be extended according to the work to be carried out.
