A high quality red dot combining both compactness and robustness allowing many hours of shooting with its long autonomy, all with weapons chambered in the largest calibers without loss of precision.

Its large 29mm lens brings great clarity and sharpness even in low light.

Its offset Cantilever type mounting makes it perfectly suited for mounting on an AR15 and assault rifle type rifle. In addition, its height makes it compatible with a magnifier, making it possible to obtain an ultra-versatile semi-automatic weapon, allowing precision shots at longer distances.

A quality product that will never let you down.

The quality of RITON products was rewarded in 2020 by BALLISTIC'S magazine.
