### Reliable subsonic accuracy, ideal for semi-automatic weapons.

40-grain subsonic full-head warhead. Standard velocity cartridge: 1082 fps (330 m/s) or an energy of 142 joules.

10 boxes of 50 i.e. 1 box of 500.

### Subsonic ammunition for accurate and silent shooting

Designed for **target shooting** and extended training sessions, this **.22 Long Rifle** cartridge offers a **subsonic velocity** of 330 m/s, ideal for minimizing noise, especially when used with a suppressor. The **solid nose** projectile ensures a consistent trajectory and stable penetration, while protecting targets.

### Perfectly compatible with semi-automatic weapons

The **GECO Rifle** is specifically optimized for **reliable semi-automatic operation**. Its consistent combustion ensures a complete cycle without feeding problems, even under heavy use. It's a wise choice for recreational or competitive semi-automatic rifles.

### Balanced ballistic performance

Measured on a **650 mm cannon**, its performance remains stable over distance:

- **At 0 m:** 330 m/s, 142 J
- **At 50 m:** 300 m/s, 117 J
- **At 100 m:** 280 m/s, 102 J

This consistency makes it a highly valued ammunition for **accurate groupings** at short and medium ranges.

### Economical and practical packaging

Supplied in **boxes of 50 cartridges**, GECO Rifle ammunition is available in **cartons of 500**, or 10 boxes. An economical solution for shooting clubs or regular shooters, without compromising on quality.

## FAQ

### **Are these cartridges compatible with a semi-automatic rifle?**

Yes, GECO Rifles are designed to ensure reliable operation in semi-automatic weapons thanks to their optimized load.

### **Can this ammunition be used with a silencer?**

Yes, its subsonic speed (330 m/s) makes it particularly suitable for use with a sound moderator.

### **What packaging options are available?**

The cartridges are sold in boxes of 50, packaged in cartons of 10 boxes, i.e. 500 units.
