- Semi-automatic rifle AKSA ARMS S4 FX03
- FALKE model S red dot sight

A weapon / optics pack allowing to apprehend all shooting distances, thanks to its aiming aid.

At close range, the red dot provides quick and instinctive target acquisition. At longer distances, the red dot facilitates aiming and generates more accurate shots.

This "Upgraded" version of the AKSA S4 brings an additional tactical design to this clone of the famous Italian semi-automatic rifle.

The German quality of the FALKE model S red dot makes it ultra resistant to recoil and the power of 12 gauge. It will last over time, without ever failing.
