RESERVED FOR ADMINISTRATIONS

DANIEL DEFENSE is one of the most popular AR15 brands in the world.

It is recognized for the quality, precision, finish and durability of its weapons.

The PDW is particularly suitable for units looking for a compact and discreet support weapon, which can be easily concealed, particularly during close protection missions.

Its 300 AAC caliber (7.62x35 mm) offers significant velocity at short and medium distances.

Its lightness and small size make it easy to handle and responsive in cramped conditions.

Its MAXIM DEFENSE CQB stock offers both great compactness when folded and once deployed, allows safe and effective shouldering of the weapon for obvious aiming. Its Buffer allows you to adapt to silent or non-silenced shots.

The PDW has an anti-blast compensator at the muzzle of its gun which directs the gases from the shot forward. It allows, when shooting from inside a vehicle or in a closed environment, to avoid destabilizing a neighboring shooter by the blast of the shots.

RESERVED FOR ADMINISTRATIONS

LOWER: Made to MILSPEC standards, machined from 7075-T6 aircraft alloy with black anodized coating, ambidextrous fire selector, and QD rear sling mount
