| XGSCI200 | VISION NOCTURNE QUAD TUBES GSCI SWAT G PANORAMIC |            | Contact us |

With its 4 tubes the SWAT G offers a field of vision of 120° horizontally and 50° vertically.

Its contained weight makes it possible to be counterbalanced by most counterweights, including in particular the external battery offered as an option by GSCI.

Its four-tube design facilitates operator progression as well as night observation.

Using PHOTONIS technology, you are guaranteed product quality, precision and reliability.

Available in the following intensifier generations:

- Gen3
- ECHO
- 4G
- ECHO-ELITE
