XGSCI350	GSCI QRF-4500 IR LASER RANGEFINDER		Contact us

An all-in-one rangefinder with its IR laser, GPS, compass

The GSCI QRF-4500 is an advanced distance measurement system.

Directly mountable on the weapon or on the optical system, this all-in-one rangefinder will provide all useful information to the user in the field, without having to multiply the measuring tools.

In addition to a fast and precise distance calculation, the QRF-4500 is able to give you your GPS position as well as those of your target.

- 1550 nm wavelength
- Compass, GPS and synchronized range finders
- Visible or IR laser pointer
- Picatinny/Weaver Rail Mount
- Calculates target angle.
- Telemetry capability: from 3m to 4500 m
- Minimum measurement time: 0.4s
- Accuracy of distance calculation: Less than 1m
- 0.96" OLED rear screen
- Compatible with GLONASS, GALILEO, EGNOS GPS system
- 18650 battery or 2x CR123 or external power supply
- Autonomy of 14500 measurements with two CR123
- Size: 112x82x44mm
- Weight: 340g
- Sealing standards: IP67
- Temperature: -40°C to +50°C
- 7 year warranty

The QRF-4500 is intended for precision shooters and spotters looking for a high-performance and precise product to calculate their shooting distances.

Its versatility and all-in-one character, combined with its compactness, makes it perfectly suited for use in the field. Easily applicable to any weapon or optical system, it allows to obtain very precise measurements, quickly with the geolocation data of yourself and the target.
