The MC2c is a compact pistol that was built specifically for concealment with its slim profile that allows for a snag-free draw. It is the evolution of the famous MC1sc. The non-slip and ergonomic handle with a specific texture for increased control.

The MOSSBERG provides a natural, safe and effective grip resulting in excellent shooting stability and increased precision.

The slides have tightenings at the rear and front for ultra-efficient load movements and handling, even in wet weather or with gloves.

Its trigger with its starting weight of 2.25 kg and its low trigger reset, allows rhythmic shots and effective double taps.
