- Extended rear safety pedal
- Openwork hammer
- Operation: single action (SA)
- Steel slide and frame and polymer pads
- Slide with front and rear grip grooves
- Ambidextrous safety

The ZIG 1911 PCS is a clone of the 1911 Commander, taking up its original lines, however, with multiple developments.

It is equipped with combat-type fixed sights, with a dovetail mount, an elongated "beaver tail" safety pedal, for better grip, a perforated stainless steel trigger, gripping grooves at the front as well as at the rear of the cylinder head, facilitating loading and unloading maneuvers.

Its lower Picatinny rail allows the mounting of a laser or lamp.

With internals compatible with COLT 70 Series parts, the ZIG 1911 provides an excellent basis for performance improvement and customization.
