- Allows effective deep cleaning of barrel and rifling.
- To be applied by means of a tampon, patch or swab, leaving to act for 10 minutes
- Non-abrasive for barrels.
- Weight: 50g

4 / Microfiber cloth

- Dimensions 40 x 40cm

FLUNATEC Gun Coating was developed to protect the coatings and tans of your guns.

Forming a thin ceramic-based film, it protects surfaces from corrosion and dirt deposits, making cleaning easier. You will retain the original appearance of your weapon and prevent the appearance of rust, especially if your handgun, rifle or shotgun is exposed to humidity.

The FLUNATEC Gun Degreaser removes all stubborn gunshot residue and prepares the surface for spraying the FLUNATEEC Gun Coating composed of a ceramic-based solution

FLUNATEC Gun Cleaner is specially developed for deep cleaning of barrels in order to eliminate all shot residues and guarantee that the ballistic performance of the weapon is maintained.
