- **Opening** : spring assisted
- **Built-in tools** : seatbelt cutter, carbide window breaker
- **Clip** : belt, discreet
- **Use** : EDC, emergency, outdoor

The **Real Avid RAV-4** is more than just a folding knife—it's a complete rescue tool designed for emergency situations. Its discreet and durable black [drop-point blade](#), combined with advanced tactical features, makes it a must-have in any EDC kit or emergency vehicle.

A blade designed to last

Forged from **8Cr13MoV steel**, the 3.25-inch blade offers excellent edge retention and ease of sharpening. Its **black oxide finish** reduces glare, making it ideal for tactical environments and operational stealth.

Technical and secure handle

Made from **glass-filled nylon (GFN)**, the textured handle ensures excellent grip, even in extreme conditions. Its ergonomic design limits fatigue during prolonged use. The knife's balance is optimized between the index and middle fingers for increased maneuverability.

Safety and speed of action

The **Axis Lock** ensures secure and intuitive closure. The **assisted opening** allows the blade to be deployed instantly with a simple movement. The discreet clip allows for a low and efficient carry, perfect for quick access.

Integrated tools to save lives

The RAV-4 features two essential emergency tools: a **seatbelt cutter** for quick interventions and a **carbide-tipped window breaker** positioned at the end of the handle. These features transform this [folding knife](#) into a true rescue knife, ideal for law enforcement, firefighters, or responsible drivers.
