The 8Cr13MoV stainless steel blade is resistant to conditions of use and bad weather. The handle, made of GFN, is durable, lightweight and easy to clean, and the applied frets help you grip the knife more firmly. The center of gravity is between the index and middle fingers, which makes it easier to use. Axis Lock protects against accidental blade closure.

Drop Point profile blade, which provides better performance during use. A spring-loaded lever or thumb button allows you to extend the blade efficiently. A unique feature of the RAV-4 knife is its additional blade for cutting belts and a window breaker hammer at the end of the handle. This increases the functionality of the knife, giving it the functions of a rescue knife.
