The Rav-6 guarantees rapid deployment and safe handling in all scenarios.

The Rav-6 from the Rav series by Real Avid Blades. Designed to be ready to use, this carry knife features an aluminum and carbon fiber handle, paired with a 3.4-inch tanto blade forged from 8Cr13MoV steel and finished with titanium.

- Handle material: Aluminum + CF
- Blade length: 3.4 inches.
- Blade profile: Tanto
- Blade material: 8Cr13MoV
- Blade finish: Titanium
- Lock type: Liner Lock
- Assisted Spring

The 8Cr13MoV stainless steel blade is resistant to conditions of use and bad weather. The aluminum and carbon fiber handle is light and durable and its texture allows for a better grip on the knife. The center of gravity is located at the index finger, which facilitates use. The Liner Lock protects against accidental closing of the blade.

The blade shape is a Tanto, which offers high performance when working, for example, with fabrics or cardboard boxes. The assisted opening system allows the blade to be extended effectively. The back of the blade is slightly inclined for better thumb support. Manufacturer's markings are on the clip and both sides of the blade. The clip itself can be unscrewed and attached to the other side, as it is secured by two Torx screws.
