The H6 is the result of cooperation between HERA ARMS and VOERE, an Austrian rifle stock manufacturer.

A HERA with an avant-garde design before its side-loading mode, facilitating prone firing and reloading a magazine.

The H6 is light with its weight of only 2.5kg.

Equipped with a handguard from the brand's AR15s, this bolt-action rifle offers numerous configuration and customization possibilities. Indeed, it is possible to mount a shorter handguard, or equipped with leather straps.

Its M-LOK mounting system facilitates the mounting of bipods and accessories.

With its threaded barrel, it allows the mounting of a silencer for discreet shooting.
