An ultra-light fabric thanks to ATS technology

Combat shirt using RIPSTOP textile for the sleeves and cotton and modacrylic for the torso.

Its ATS textile, designed in partnership with Cordura, brings great lightness to the combat shirt, while being very resistant.

Its thinness further improves moisture evacuation and offers rapid drying.

Its design also offers slight elasticity to the fabric, without the use of elastane.

It can be worn alone or with its plate holder, intervention vest or plate holder.

Its ergonomics and the design of its seams provide great wearing comfort. Its effect is close to comfort, offering great ease and freedom of movement for its wearer.

Its breathable textile helps wick away perspiration even in high heat.

Well thought out, the RAIDER has YKK zipped pockets below the shoulders, covered with Velcro to attach various patches and badges.

An adjustment system is positioned at the elbows and wrists.

- Sleeves: 57% Polyamide - 43% cotton
- Torso: 39% Polyamide - 10% Viscose - 50% Cotton
- Textile with IR treatment
- Textile density: 180 GSM
