## A modern, streamlined, ultra-light field jacket

The Field Shirt is a thin and advanced jacket intended for military personnel and members of law enforcement. In this OPERATOR version, it is intended for operators looking for light equipment with a low carrying capacity, for short actions with low projection.

The ATS fabric was designed in collaboration with Cordura. It combines great finesse and lightness with resistance to tearing and abrasion. In addition, this fabric naturally provides a slight "stretch", which does not limit the user's movements.

Its versatility makes it suitable for multiple uses (training, routine service, combat).

Ultra breathable thanks to its ultra light ATS fabric, it has multiple ventilation systems, making it pleasant to wear even in high heat.

Its fine cut allows it to be worn close to the body.

Ergonomic, it has discreet zipped pockets at the chest and lower shoulders.

Different Velcro placards allow different patches, crests, rank and surname band.

- Composition: 50% Polyamide - 50% Cotton
- Textile density: 180 GSM
- YKK zippers
- Anti-IR textile treatment
