- **Spring:** stainless steel, corrosion-resistant, memory-free
- **Follower:** anti-tilt (anti-rolling)
- **Color:** black
- **Finish:** Cerakote compatible
- **Made** in the United States
- **Packaging:** pack of 5 chargers

Tactical versatility and proven reliability

Amend2 MOD-2 magazines are designed for AR15, M4, and M16 rifles chambered in **5.56x45/.223 Remington** . This pack contains five identical magazines, ideal for rapid rotations in the field or extended shooting sessions at the range. The high-density polymer used offers an excellent balance of lightness, impact resistance, and durability.

Optimized design for dynamic shooting

Each magazine is equipped with an **anti-tilt follower** to minimize feeding problems, even during rapid reloading or high-volume use. The corrosion-resistant **stainless steel spring** ensures consistent thrust without weakening over time, even when stored under load.

Textured grip and customizable finish

The magazine body features a **textured coating** for a secure grip with or without gloves. Each unit is **Cerakote-ready** , offering compatibility with thermal finishes for advanced customization. Manufactured and assembled in the USA, they combine functionality with military aesthetics.

FAQ

Are these magazines compatible with all AR15s?

Yes, they are designed to fit standard AR15/M4/M16 platforms in 5.56/.223.

Can the spring remain compressed without deteriorating?

Yes, the stainless steel memory spring retains its tension even after prolonged storage.
