MO9145	Mossberg MC2SC Optic Ready 9x19	CG588	B	9 x 19	15	8.6	15.88	2.79	10.92	820.00 € incl. tax

A sub-compact 9x19mm pistol with 11- and 14-round double-stack magazines that provide a slim, compact profile.

The Optic ready slide is machined to allow direct mounting of Micro Dot optics.

- Caliber 9x19mm
- 3.4" (8.64cm) stainless steel barrel with a pitch of 1:16" (406mm)
- Stainless steel slide with angled grip ridges front and rear for easy slide handling
- Barrel and slide with diamond-type carbon coating to reduce the risk of oxidation
- Rear sight and three-point white front sight mounted on dovetail, windage adjustable
- High-strength fiberglass-reinforced polymer frame with 4 engraved parts to improve the grip of the weapon
- Reversible magazine button
- The trigger block has an active safety on the trigger tail, a starting weight of approximately 2,700 kg and a particularly short reset.
- MOSSBERG pistols equipped with the Take down system require the user to secure the weapon by removing the firing pin before being able to remove the slide. The user is therefore not required to pull the trigger to disassemble the handgun.

The optics-ready slide allows direct mounting of Micro Dot optics. The slides are 416 stainless steel with a black DLC finish, with angled serrations for positive slide handling. The sights are dovetail mounted, and come standard in a low-profile, snag-free 3-white dot configuration. The frames are made of high tensile strength glass-reinforced polymer and feature Mossberg's signature aggressive texture as well as a palm bulge for a firm, confident grip in a variety of shooting conditions.
