- 10.5" (26cm) barrel
- A2 handlebar and mbus flip up
- CTR stock on standard 6 position receiver extension
- Magpul SL pistol grip
- Delivered in cardboard with a 10-round magazine
- Made in the USA

Handguard drop in Magpul MOE:

Designed with versatility in mind, M-LOK slots at the two, six and ten o'clock positions allow attachment of optional Picatinny rail sections and other direct-attach M-LOK accessories for mounting tactical lights, slings, handles, etc. Reinforced, heat-resistant polymer construction provides operational durability without the weight and cost of an aluminum rail handguard.

CTR Magpul stock:

The Magpul CTR (Compact/Type Restricted) Mil-Spec Stock is a replacement stock for AR15/M16 rifles using mil-spec sized receiver extension tubes. Designed for light, fast action, its A-shaped profile prevents snagging and protects the release latch to prevent accidental activation.

The CTR also features an additional friction lock system that minimizes excessive stock movement for improved weapon stability* and an ambidextrous QD sling mount that accepts any sling swivel to pushbutton. The Mil-Spec model is equipped with a 0.30" rubber butt plate that provides positive shoulder

support and prevents gun slippage, even with the body.

Magpul SL pistol grip:

The MOE SL Grip (MOE Slim Line) is an improvement on AR15/M4 pistol grips with a more vertical grip angle optimized for low-aperture weapons that brings the lead hand closer to the shooter's body. With an aggressive TSP texture for positive weapon control and excellent ergonomics, the SL grip offers a slightly smaller size and slimmer feel. All mounting accessories are included.
