Effectively reduces recoil and barrel climb for optimum accuracy.

The Audere HMB muzzle brake is designed for demanding shooters, whether sports or professional. By reducing recoil and barrel lift, it improves shooting comfort while optimizing accuracy. Made with high-quality materials, it guarantees exceptional durability, even during intensive use. Compatible with various calibers and equipped with an optimized design, it is easy to install and adapts to a large number of rifles.

Technical characteristics

- **Material** : High strength stainless steel
- **Compatible calibers** : 6.5, .30/7.62, 9.3
- **Available threads** : 1/2"-20, M14x1, M15x1, 5/8"-24, M18x1
- **Dimensions** : Compact for easy integration
- **Weight** : Light so as not to unbalance the weapon
- **Finish** : Black or polished steel
- **Application** : Sport shooting, tactical shooting

- **Directional Ports** : Optimized design for precise throttle control

This muzzle brake combines performance, durability and aesthetics to meet the needs of the most demanding shooters.

The Audere HMB muzzle brake is the ideal choice to improve the performance of your weapon. Designed with expert ballistic engineers, this device reduces recoil by up to 70% thanks to an innovative internal architecture. Its directional ports are specially designed to efficiently manage gases, thus limiting barrel rise and allowing rapid reacquisition of the target. Installation is simplified thanks to its standard thread, making this muzzle brake compatible with a wide range of barrels. Available in elegant and robust finishes, it meets both aesthetic and functional requirements. Perfect for sport shooting, hunting or tactical interventions, this product is aimed at professionals and enthusiasts wishing to maximize the performance of their weapon.
