Recoil control and optimum precision for the most demanding shooters.

The Audere Hammerhead muzzle brake is designed to maximize shooting performance, whether for sport, hunting or tactical applications. With effective recoil reduction and precise gas control, this model improves weapon stability and allows for rapid target reacquisition. Made of high-strength steel and featuring a meticulous finish, it guarantees exceptional durability and simple assembly thanks to its standard thread. Its robust design and efficiency make it an ideal choice for professionals and shooting enthusiasts.

Technical characteristics

- **Material** : High strength hardened steel
- **Calibers:** .308 Winchester, .338 Lapua Magnum, .375 Cheytac, .408 Cheytac and .50 BMG
- **Compatibility** : Standard thread (depending on caliber)
- **Dimensions** : Compact design for optimal integration

- **Weight** : Adjusted to not unbalance the weapon
- **Finish** : Robust with a modern aesthetic
- **Resistance** : Designed for intensive use conditions
- **Directional Ports** : Optimized for precise control and efficient gas dispersion

The Hammerhead muzzle brake, signed Audere, stands out for its innovative design and its ability to reduce recoil by up to 70%. Its advanced internal structure redirects gases optimally, minimizing barrel rise and providing increased stability for precise chain shots. Made of hardened steel, it is designed to withstand the harshest conditions while maintaining its effectiveness. Compatible with a wide range of calibers and rifles thanks to its universal thread, the Hammerhead is easy to install and adapts perfectly to the needs of demanding shooters. Ideal for improving the performance of modern weapons, it also stands out for its modern aesthetics and well-thought-out ergonomics.
