Maximum stability and enhanced precision for intensive shooting.

Designed for professional and sport shooters, the Audere TSO compensator optimizes the stability of your rifle during each shot. Thanks to its innovative design, it limits barrel lift, reduces vibrations and improves gas management. Made of high-strength steel, it is durable and suitable for various calibers. Easy to install thanks to its standard thread, it offers an excellent performance/compactness ratio, making it an ideal choice for precision shooting, competitions and tactical interventions.

Technical characteristics

- **Material** : High strength steel
- **Reduction of the bearing** : Optimization of successive shots
- **Compatibility** : 1/2x28 unef
- **Dimensions** : Compact for optimal integration
- **Weight** : 73 g
- **Finish** : Black
- **Directional Ports** : Advanced design for precise throttle control
- **Application** : Sport shooting, tactical shooting

The Audere TSO compensator is specially designed to maximize shooting accuracy and comfort. Its advanced directional port system optimizes gas control, significantly reducing recoil effects and barrel lift, for rapid target reacquisition. Its robust steel construction ensures a long service life, even during intensive use or in demanding environments. Compatible with a wide range of rifles, thanks to its universal thread, the TSO stands out for its ease of installation and proven efficiency. Its elegant finish adds a professional touch to your weapon, while meeting the expectations of the most demanding shooters.
