YTS123	Extractor for 1911 .45 ACP (.45 Auto)	Vente libre	43.00 € incl. tax

Improve the reliability of your 1911 pistol with this extractor, designed for a precise and smooth extraction cycle of .45 ACP caliber cartridge cases.

The extractor for 1911 pistols in .45 ACP caliber plays a key role in the internal mechanics of the weapon. Located inside the slide, it is responsible for firmly gripping the throat of the cartridge case after each shot, in order to hold it in place until it is ejected from the weapon. Reliable and accurate extraction is essential to ensure a smooth firing cycle, minimize misfires and allow for efficient reloading.

Compatible with Colt 70 series pistols.
