YTS124	Disconnecter for 1911	Vente libre	50.00 € incl. tax

The disconnect is an essential element of the mechanical safety of the 1911. It ensures that the weapon can only fire once per trigger pull.

Placed between the hammer and the trigger, its role is to temporarily disconnect the trigger from the hammer during the recoil cycle. This function helps prevent burst firing and ensures that the weapon can only fire one shot per pull of the trigger, thus ensuring safe and reliable operation.

Compatible with Colt 70 series pistols.
