Discover the second generation of the Adversus mount, specially designed to offer maximum precision and exceptional robustness in long-distance shooting.

The AUDERE Adversus Gen 2 mount revolutionizes long-range shooting with its improved design and optimized features. Made of aeronautical aluminum, it combines lightness and robustness, while offering a 20 MOA tilt to maximize accuracy on distant targets. Its compatibility with Picatinny and Weaver rails ensures quick installation and solid fixation.

- High quality 7075T6 aluminum clamps.
- Very rigid 6 screw mount compatible with 21mm Mil Std 1913 rails.
- Front spirit level to refine your aim.
- Jaw tightening 5Nm max.
- Tightening of the clamps 3Nm max.

The second generation of the AUDERE Adversus mount is designed for demanding shooters looking to achieve optimal performance in long-distance shooting. Designed in 7075-T6 aeronautical aluminum, this mount offers increased rigidity while maintaining a reduced weight, essential for preserving the balance of your weapon.

Its 20 MOA tilt is ideal for long and very long range shots, allowing you to fully exploit the elevation capabilities of your scope. The Gen 2 version incorporates an improved clamping system, ensuring optimal support and simplified installation. In addition, its sleek design reduces interference with other accessories, for a perfectly functional weapon configuration.

The AUDERE Adversus Gen 2 mount is compatible with Picatinny and Weaver rails, ensuring maximum flexibility. Its black anodized finish ensures prolonged resistance to the harshest weather conditions, while offering a professional and modern look. Whether you are a sports shooter or a

defense professional, this mount is designed to meet the needs of the most demanding configurations.

AUDERE Adversus Gen 2 Scope Mount: Excellence for Long Distance Shooting

Discover the second generation of the Adversus mount, specially designed to offer maximum precision and exceptional robustness in long-distance shooting.

The AUDERE Adversus Gen 2 mount is the ultimate tool for snipers and long-range shooting enthusiasts. With its technical improvements and innovative design, it guarantees flawless stability and a perfect fit for all your high-end optics.

Main Description

The AUDERE Adversus Gen 2 mount revolutionizes long-range shooting with its improved design and optimized features. Made of aeronautical aluminum, it combines lightness and robustness, while offering a 20 MOA tilt to maximize accuracy on distant targets. Its compatibility with Picatinny and Weaver rails ensures quick installation and solid fixation.

With its precise adjustments and reinforced clamping system, this mount allows for perfect alignment of the scope, even under powerful shots. Its black anodized finish guarantees exceptional durability, resisting corrosion and extreme conditions.

Additional SEO Description

The second generation of the AUDERE Adversus mount is designed for demanding shooters looking to achieve optimal performance in long-distance shooting. Designed in 7075-T6 aeronautical aluminum, this mount offers increased rigidity while maintaining a reduced weight, essential for preserving the balance of your weapon.

Its 20 MOA tilt is ideal for long and very long range shots, allowing you to fully exploit the elevation capabilities of your scope. The Gen 2 version incorporates an improved clamping system, ensuring optimal support and simplified installation. Whether you are a sports shooter or a defense professional, this mount is designed to meet the needs of the most demanding configurations.

Technical characteristics

- **Material** : 7075-T6 Aircraft Aluminum
- **Rail compatibility** : Picatinny and Weaver
- **Tilt** : 20 MOA base to maximize range
- **Clamping system** : Double reinforced screws for rigid fixing
- **Weight** : Lightweight structure for optimal balance
- **Finish** : Anti-corrosion black anodization
- **Use** : Long distance shooting, competition, tactical applications
- **Version** : Enhanced (Gen 2) with optimized features
- **Durability** : Resistance to extreme climatic and mechanical conditions

Key Benefits

- TLD optimized design with increased accuracy.
- 20 MOA tilt to fully exploit the optics.
- Exceptional resistance for intensive and long-lasting use.

Don't leave anything to chance in your long-range shots. **Order the AUDERE Adversus Gen 2 mount now and dominate your most distant targets!**
