Take it to the next level with the AUDERE Adversus Gen 2 monobloc mount, designed to provide unmatched stability and optimum accuracy in long-range shooting.

The AUDERE Adversus Gen 2 monobloc mount combines innovation and reliability for professional shooters and TLD enthusiasts. Built from 7075-T6 aerospace aluminum, this mount guarantees exceptional strength while maintaining the lightness essential to preserve the balance of the weapon. Its integrated 20 MOA tilt maximizes the elevation capabilities of precision scopes, ideal for very long-range shooting.

- Fixed mount in 7075T6 aluminum with spirit level.
- Very rigid 6 screw mount compatible with 21mm Mil Std 1913 rails.

The AUDERE Adversus Gen 2 monobloc mount is a high-end piece of equipment, specially designed for demanding shooters. Its monobloc design improves rigidity and eliminates the risks of misalignment often encountered with multi-piece systems. Made of 7075-T6 aluminum, a material renowned for its strength and lightness, this mount is perfect for precision weapons used in long-range shooting.

The built-in 20 MOA tilt is a major asset, allowing you to shoot at extreme distances while optimizing your scope settings. The reinforced clamping system ensures a firm and stable hold of the optic, even with powerful calibers. Compatible with Picatinny and Weaver rails, the Adversus Gen 2 mount is easy to install and adapts to a wide range of scopes.

This product is also designed to withstand harsh environments thanks to its black anodized finish, which protects it against corrosion and scratches. Whether for a long-distance shooting competition or a demanding tactical mission, the AUDERE Adversus Gen 2 monobloc mount offers exceptional performance.

Technical characteristics

- **Material** : 7075-T6 Aircraft Aluminum
- **Rail compatibility** : Picatinny and Weaver
- **Built-in tilt** : 20 MOA for long range shooting
- **Clamping system** : One-piece fixing for maximum rigidity
- **Weight** : Lightweight and balanced design
- **Finish** : Black anodized for corrosion protection
- **Use** : Long distance shooting, competition, tactical operations
- **Design** : Monobloc for increased stability and precision
- **Durability** : Optimal resistance to extreme climatic and mechanical conditions

Key Benefits

- One-piece design for unparalleled rigidity.
- Built-in 20 MOA tilt to maximize precision scope performance.
- Durable finish suitable for demanding conditions.

Optimize your shots and gain precision at long distances! Order the AUDERE Adversus Gen 2 monobloc mount now and prepare to excel in all your missions.

- Jaw tightening 5Nm max.
- Tightening of the clamps 3Nm max.
