Opt for the AUDERE Levitas cantilever mount, an ultra-light and robust solution designed for demanding shooters looking for performance and versatility.

Made from 7075-T651 aluminum, the Levitas™ is finished with a Type 3 hardcoat anodizing, ensuring increased durability and strength. Compatible with 1913 (Picatinny) or NATO rails, it easily adapts to various weapon configurations. Available in 30mm or 34mm diameters, with 0 or 20 MOA cant options, it meets the specific needs of demanding shooters.

- Robust and lightweight assemblies
- Four ScopeLink™ interfaces for attaching optical accessories
- Compatible with any 1913 (Picatinny) or NATO rail
- Made of 7075-T651 aluminum
- Finished with Type 3 hard coat anodizing (MIL-A-8625 TYPE 3)

The AUDERE Levitas cantilever mount is a reference for shooters looking for a solution that is both lightweight and high-performance. Built from 7075-T6 aluminum, this mount guarantees exceptional robustness while minimizing weight to avoid unbalancing your weapon. Ideal for competitions, sport or tactical shooting, it offers great versatility thanks to its cantilever design, which allows optimized positioning of the scope on the weapon.

This mount is designed to fit Picatinny rails, with quick and easy installation. Its robust clamping system ensures perfect stability, eliminating the risk of misalignment, even under recoil. The black anodized finish provides increased corrosion resistance and a sober and professional aesthetic.

The Levitas Cantilever is perfect for setups requiring scope offset, offering maximum ergonomics and accuracy. Whether you are a sport or professional shooter, this mount will meet your highest expectations.

Technical characteristics

- **Material** : 7075-T6 Aircraft Aluminum
- **Rail compatibility** : Picatinny
- **Mounting Type** : Cantilever for remote positioning of the scope
- **Clamping system** : Secure fixing with double screws
- **Weight** : Ultra-light structure to optimize the balance of the weapon
- **Finish** : Anti-corrosion black anodization
- **Use** : Sport shooting, tactics, competitions
- **Design** : Ergonomic with optimized positioning of the optics
- **Durability** : Resistance to harsh climatic conditions
