### SBR Design - Short Barrel Rifle

The Daniel Defense LIBERTY pack contains:

- An AR15 DDM4V7-S chambered in 5.56x45mm caliber
- A Primary Arms 2 MOA red dot sight
- A montage for red dot

Manufacturer [DANIEL DEFENSE](#) designs the best in AR15 and M4, with an attention to detail and finish that is few and far between.

This manufacturing quality allowed this manufacturer from the USA to supply the American USSOCOM.

The DDM4 V7S AR15 features a 10.0 M-LOK MFR rail and is built around a cold-forged, free-floated 11.5-inch barrel. The V7S provides optimum handling, reliability, accuracy, and terminal ballistics with a wide variety of ammunition. Its carbine-length gas system provides smooth, reliable cycling in harsh conditions and reduces perceived recoil. With 7-position M-LOK attachment points and an uninterrupted 1913 Picatinny rail on top, the V7S has plenty of room for sights, optics, and accessories the user may need. The combination of an 11.5-inch barrel and MFR rail also ensures compatibility with a wide variety of muzzle devices and sound suppressors. The independently ambidextrous GRIP-N-RIP charging handle accommodates both left- and right-handed shooters. This rifle also comes with the ergonomic Daniel Defense Buttstock and Pistol Grip.
