- Made in USA

The **Daniel Defense DDM4 V7S** is a compact 5.56 NATO caliber firearm designed for tactical environments where maneuverability is crucial. Its 11.5-inch barrel, manufactured using cold hammering, ensures consistent accuracy and unmatched durability. Combined with a Mid-Length gas system, this configuration provides a smooth firing cycle and reduces recoil for optimal control.

The **MFR 10.0** rail, compatible with M-LOK, is lightweight and allows for easy attachment of accessories such as grips, lights or lasers, while optimizing the grip. The Mil-Spec+ Cerakote finish protects the weapon from wear and harsh environmental conditions, while the ergonomic grips improve comfort and control.

This rifle also features the Daniel Defense stock system which ensures maximum adaptability to meet the specific needs of shooters, whether for defense, sport shooting or professional missions.
