- **Weight** : 2.27 kg
- **Magazine capacity** : 10 rounds

The **DDM4 300S** is a compact rifle designed to make the most of the 300 Blackout caliber, offering exceptional power in a small format. Its 10.3-inch barrel made of cold-forged chrome-molybdenum-vanadium steel guarantees remarkable accuracy and durability, even under intensive use conditions.

The 9.55-inch M-LOK® SLiM Rail handguard provides a lightweight, ergonomic platform for complete customization with accessories such as lights, grips, or optics. This system ensures a comfortable grip and optimal control, even in tight environments or during extended sessions.

With its pistol-length gas system, the DDM4 300S offers smooth and reliable operation whether used with supersonic or subsonic ammunition. It is particularly effective in a suppressor configuration, making it ideal for covert and tactical applications.

Constructed from hard-anodized 7075-T6 aluminum, the DDM4 300S is rugged, lightweight, and built to last. Its adjustable stock and ergonomic grip add comfort and maneuverability, allowing for optimal use for sport shooting, defense missions, or tactical training.
