This pack contains the following references:

- Daniel Defense MK18 short barrel semi-automatic rifle (DDM4101)
- Upper complete receiver AR15 Daniel Defense Cal.300 blk 10.3" (DDU300)

Features :

Daniel Defense MK18 5.56 (DDM4101):

The civilian version of the MK18 - US Navy Seals in SBR (Short barrel rifle)

- Compact (10.3" barrel or 26.2 cm) with rifling pitch of 1:7 (5.56mm) and 1:8 (300 BLK)
- RIS II type handguard with 21 mm Picatinny rail
- Lightweight and adaptable thanks to its 4 Picatinny rails on the front.
- Anodized black cerakote coating.
- Supplied in polymer case with 1 10-round magazine.
- Made in USA.

Manufacturer [DANIEL DEFENSE](#) designs the best in AR15 and M4, with an attention to detail and finish that is few and far between.

This manufacturing quality allowed this manufacturer from the USA to supply the American USSOCOM. The MK18 offers the perfect combination of weight, size and performance. It makes it an ideal weapon for CQB (Close Quarter Battle) combat as well as for TSV Rifle (Speed Shooting).

The best AR-15 Made In USA

A reliable, durable, and precise weapon.

BARREL: 10.3" (26.2 cm) free-floating, rifled in 1:7 (5.56mm) and 1:8 (300 BLK) pitch, cold hammered, to military specifications. Made of chrome moly vanadium steel, with a black Cerakote finish.

MUZZLE BRAKE: A2 "Birdcage" type steel flash hider

LOWER: CNC machined from Mil-Spec 7075-T6 aluminum

UPPER: CNC machined from Mil-Spec 7075-T6 aluminum.

OPERATION: Direct gas borrowing with low profile gas borrow block, CNC machined from 4140 hardened steel.

CYLINDER HEAD GROUP: M16 profile with chrome treatment

HANDGUARD: RIS II type front, equipped with four Picatinny rails: 21 mm Weaver to MILSTD 1913 standards with high-strength Santoprene soft rail protection, for better handling comfort and excellent grip.

HANDLE: Ergonomic handle with soft touch coating providing a comfortable and non-slip grip

STOCK: 6-position telescopic stock made of reinforced fiberglass polymer, with Soft Touch coating, compatible with standard A2 AR15 stock tubes.

Comes with a GRIP-N-RIP vertical handle with a 7075-T6 and 6061-T6 aluminum body and soft grip coating

Flared magazine well for intuitive and quick magazine insertion.

Multiple locations for Quick Detach (QD) straps and slings

All mechanical parts and barrels produced by [DANIEL DEFENSE](#) are subject to rigorous verification, such as magnetic treatment tests, to detect the slightest defect in the steel.

The MK18 chambered in 5.56 mm caliber, allows the use of both 223 Rem ammunition, the civilian denomination, as well as 5.56x45 mm, more military-type, with significantly higher pressures generated. Compact (10.3' barrel or 26.16 cm).

Upper complete receiver AR15 Daniel Defense Cal.300 blk 10.3" (DDU300):

An Upper with a compact barrel, adapted to ideal ammunition for shooting with a sound moderator.

Complete upper DANIEL DEFENSE for AR15 platform with breech group.

- 10.3" (26.16 cm) cold hammered barrel chambered in cal .300 Blackout rifled in 1:8 pitch and Daniel Defense type A2 flash hider.
- MILSPEC cylinder head group M16 profile.
- Direct gas operation with low profile gas block.
- DDM4 9" (22.86 cm) RIS type handguard made of CNC machined anodized 6061-T6 aluminum with 21mm MILSTD 1913 Picatinny / Weaver rails.
- Picatinny rail cover in high-strength Santoprene soft material.
- Location for QUICK DETACH (QD) sling.
