Optimize your weapon with the MFR™ M-LOK rail: a perfect combination of strength, lightness and modularity for unmatched tactical performance.

The Daniel Defense MFR™ M-LOK rail offers a high-performance solution for demanding shooters. Designed in aeronautical aluminum, it guarantees exceptional robustness while reducing the weight of your platform. Its M-LOK system ensures optimal modularity for the installation of tactical accessories. Whether for sport, tactical or operational shooting, the MFR™ 15.0 M-LOK meets all your expectations.

Technical characteristics:

- **Material**
- **Finish**
- **Available length**
- **Attachment system**
- **Weight**
 - 15-inch version: 12.27 oz (348 g)
 - 10-inch version: 8.4 oz (238 g)
- **Compatibility**
- **Fixing system**
- **Ventilation**

The Daniel Defense **MFR™ 15.0 M-LOK Rail** is the epitome of innovation and quality. Made from 6061-T6 aluminum, it combines strength and lightness, reducing the weight of your weapon while maintaining optimal resistance to the most demanding tactical environments. Its sleek design and ergonomic design make it a top choice for professionals and serious amateurs.

Modularity and Customization

The **M-LOK** system offers unprecedented flexibility. Position your accessories – grips, lights, optics – exactly where you need them, while maintaining a natural and secure grip. Multiple attachment points ensure compatibility with modern tactical equipment.

Intelligent Design and Maximum Performance

Optimized ventilation improves heat dissipation, extending the durability of your components. Its 15-inch length (or 10 inches for compact configurations) allows compatibility with many platforms and configurations. Every detail is designed to optimize your accuracy and comfort when shooting.

Reliability Signed Daniel Defense

Compliant with rigorous industry standards, the MFR™ 15.0 M-LOK is a preferred choice of security professionals and military forces. Its Mil-Spec anodized finish protects against wear and corrosion, ensuring exceptional longevity even in the most extreme conditions.
