- **Adjustments** : Adjustable rear element for windage and elevation
- **Accessories Included** : Mounting hardware included

The Daniel Defense AR-15 Metal Sight Set is a must-have accessory for shooters looking for a reliable and durable sighting solution. Constructed from 6061-T6 aluminum, this set offers exceptional strength while maintaining minimal weight to not weigh down your setup.

The set includes a rear sight and front sight, designed for rapid alignment and precise target acquisition. The low-profile design allows for discreet installation, ideal for use in conjunction with optics. The intuitive folding mechanism offers rapid deployment, essential for tactical situations.

The Type III anodized coating protects the sights from corrosion and wear, ensuring long life even in harsh environments. Whether for precision shooting or dynamic exercises, these sights are designed to excel in all conditions.
