Accuracy and speed at your fingertips: optimize your tactical setup with the Daniel Defense Offset Rail.

Designed to provide an innovative mounting solution, the Daniel Defense 1 o'clock offset rail allows for the addition of accessories such as secondary optics or tactical lights at a strategic angle. Lightweight and robust, it is the ideal ally for tactical and sport shooters. Allows the mounting of a red dot simultaneously with a scope or open sight.

- 6061-T6 Aerospace Aluminum
- Mil-Spec Type III Hard Anodized
- Made in the USA

The Daniel Defense 1 O'clock Offset Rail is a must-have accessory for demanding shooters. Constructed from 6061-T6 aluminum, it offers exceptional strength while maintaining optimum lightness. This rail is designed to attach to a MIL-STD-1913 Picatinny interface, ensuring a secure installation and universal compatibility with many accessories.

Its offset 1 o'clock angle allows quick and intuitive access to your secondary accessories without disturbing your weapon's main configuration. This solution is ideal for installing a secondary optic or tactical light, allowing you to improve your responsiveness and performance in dynamic scenarios.

Featuring a Type III anodized coating, this rail resists scratches, corrosion and harsh conditions, providing exceptional durability in the field or during competition.
