### Push the limits of performance with the Kimber RAPIDE ICE TFS, a tactical 1911 pistol ready for silent shooting and extreme accuracy.

The Kimber RAPIDE ICE TFS embodies tactical perfection. Featuring a lightweight slide, threaded match-grade barrel, and a two-tone icy stainless steel finish, it is designed for pinpoint accuracy. Compatible with a suppressor thanks to its integrated thread, it offers optimum versatility for professional, tactical, and sport shooting.

- Caliber 9x19mm (9mm Luger)
- 5.5" (13.97cm) forged steel barrel with 1:16" (406mm) rifling pitch and 1/2x28 thread
- Stainless steel frame with Picatinny rail
- Stainless steel cylinder head with aggressive gripping grooves front and rear
- Sights raised to silencer height, three-dot white sight
- Openwork hammer
- Large Beaver Tail
- G10 handle
- Capacity 9+1

**Supplied without silencer or lamp (photo for illustration).**

The Kimber RAPIDE ICE TFS is designed for professional shooters, competitors and firearms enthusiasts who seek power, precision and versatility. Its unique design and advanced technical features make it a must-have for those who demand excellence.

#### Tactical Design and Glacial Finish

Its brushed stainless steel slide features a KimPro II Ice Silver finish, ensuring corrosion resistance and durability. Machined lightening windows reduce weight and speed the firing cycle, while giving it a bold, aggressive appearance.

The textured G10 grips with a distinctive ice pattern provide a firm and secure grip, even in harsh conditions. The stainless steel frame and two-tone finish ensure both strength and elegance.

#### **Suppressor Compatibility and Maximum Accuracy**

The 5.25-inch match-grade barrel is threaded (1/2x28) to accommodate a suppressor ready. This feature increases the pistol's versatility and allows for quieter shooting in tactical or sporting environments.

The adjustable Skeletonized trigger provides a crisp, consistent release, ideal for precision sport shooting. The sighting system consists of an illuminated fiber optic front sight and an adjustable rear sight, providing fast, accurate target acquisition in all light conditions.

Each model is rigorously tested to ensure flawless performance right out of the factory, making it a reliable weapon for tactical missions, competition and personal defense.
