Kimber unveils a modernized version of the famous 1911 pistol.

The KHX Custom features laser-equipped G10 Hogue Enhanced MagGrip grips and a main spring housing that forms an external mag well and continuous wraparound grip surface. Green and red fiber optic sights ensure clear and bright vision.

- Caliber .45 ACP (11.43x23mm)
- Gray finish stainless steel frame, KimPro II
- Breech with deep grip grooves
- 5" (127mm) forged steel barrel with 1:16" rifling pitch (left rifling)
- Raised rear sight and fiber optic front sight
- Hammer and perforated trigger tail
- Capacity 9 shots (8+1)

The Kimber KHX Custom .45 ACP pistol is designed to deliver exceptional shooting performance, even in the most demanding conditions. Whether you are a professional tactical shooter or a sports shooting enthusiast, this model will meet your highest expectations thanks to its careful design and competition-level accuracy.

Tactical Design and Rugged Construction

The slide and frame are made of stainless steel, ensuring strength and durability over time. The KimPro II black finish resists wear and corrosion while providing a discreet and professional look.

Textured G10 buttstocks provide a secure and comfortable grip, even during long shooting sessions. The front and rear gripping surfaces are machined to ensure easy and secure handling.

Exceptional Precision and Performance

Equipped with a 5-inch match-grade barrel, the Kimber KHX Custom .45 ACP guarantees accurate and consistent shots. Its light, adjustable trigger provides a clean and consistent release, essential for accuracy in competition or during tactical missions.

The sighting system consists of an illuminated front fiber optic and a fixed rear sight, ensuring fast and efficient target acquisition. The ambidextrous safety and widened trigger guard allow for smooth handling and optimal control, even with gloves.

Individually factory tested, every Kimber KHX Custom is ready to deliver reliable, consistent performance right out of the box.
