Dominate long-range shooting with the Victrix Venus-T rifle, designed for demanding elite shooters and competitors.

Designed for precision enthusiasts and shooting professionals, the TLD Victrix Venus-T rifle combines cutting-edge technology with Italian engineering. Its aircraft-grade aluminum chassis and free-floating barrel provide exceptional stability and accuracy. With its adjustable stock and customizable trigger system, it guarantees total control over every shot, even in the most demanding conditions.

- Lothar Walther button-fired barrel in AISI 420 match quality.
- Stock with multiple button horizontal and vertical adjustments and an adjustable insulated trigger guard, equipped with an Anschütz type rail on the underside.
- 10-round dual-feed, dual-stack metal magazine.
- High-strength, one-piece chassis made of light alloy.
- Lightweight alloy profile fork equipped with a side M-LOK® system and QD (quick-release) attachments, an integrated Anschütz rail in the center and an integrated Arca rail along the full length.
- Ergonomic and interchangeable flat handle for standard AR platform
- Integrated 20 MoA action rail
- Victrix ProAngle Venus T 4-chamber removable muzzle brake.
- Short mechanism in AISI 630 made from a billet by milling and turning. Breech with six symmetrical lugs, equipped with grooves and an interchangeable breech lever.
- PVD finish on the frame and cylinder head.
- Victrix Sporting Plus Single-stage adjustable trigger with two-position safety: standard setting 400 gr (14.11 oz)
- Explorer Cases carrying case cod. 13513
- User manual and welcome kit
- **Rifle scope and bipod not included**

The Victrix Venus-T TLD rifle is an iconic model in the Victrix range, designed for shooters looking for superior performance. Its monobloc 7075 aluminium chassis guarantees exceptional rigidity and optimum resistance to wear. The precision-machined, free-floating barrel offers unrivalled shooting consistency even over long distances.

The fully adjustable trigger system allows you to adjust the pull weight for perfect control with every shot. The ergonomic stock is adjustable in length, height and tilt, ensuring an optimal posture whatever the shooting situation.

Its integrated Picatinny rail allows for the quick installation of optics and tactical accessories. The barrel is threaded to accommodate a muzzle brake or a sound moderator depending on operational needs. Modular components make this rifle adaptable to all sport shooting missions and disciplines.

Built to withstand the harshest environments, the Victrix Venus-T is the preferred choice of security forces, snipers and competitors looking to achieve maximum performance with surgical precision.
