Victrix Armaments launches a range of short-barreled rifles (Small Bore).

The Victrix Armaments Pugio Small Bore, chambered in .22LR, delivers exceptional accuracy in a compact package. Designed for sport shooting, training or learning precision shooting, it combines handling, reliability and remarkable performance thanks to its advanced engineering and premium materials.

- **Caliber:** .22LR
- **Barrel:** Stainless steel, cold hammered
- **Action:** Smooth and precise locking
- **Chassis:** Single-piece aerospace aluminum
- **Stock:** Adjustable in length, cheek height and inclination
- **Trigger System:** Adjustable for optimal control
- **Picatinny Rail:** Integrated on top and sides
- **Muzzle brake:** Optional depending on configuration
- **Ergonomics:** Pistol grip and customizable modular interfaces
- **Use:** Sport shooting, training, learning precision shooting

AT THE HIGHEST LEVEL

Victrix Pugio Small Bore follows the same construction standards, materials and coatings of its "big brother" in order to guarantee the high quality levels that distinguish all Victrix rifles.

THE BEST COACH

With Victrix Pugio Small Bore you can simulate the difficulties of larger calibers at shorter distances and low ammunition costs. It is also ideal for a professional shooter who needs constant training on the firing line.

FINALLY PROOF THAT SIZE DOESN'T ALWAYS MATTER
The most widespread beliefs do not always correspond to reality.
Here's why it's important to broaden your horizons: It's time to take precision shooting to the next level.

- Barrel length: 16''
- Weight: 5.51 kg
- Total length: 652 mm (stock folded) / 898 mm (stock unfolded)
- Special steel rifled barrel hammer-forged by Lothar Walther
- Barrel muzzle thread M18x1mm
- Stock with multiple horizontal and vertical adjustments by lever, retractable monopod with quick position adjustment and fine adjustment, and isolated cheek piece
- 10-round single-feed, single-stack magazine
- EVO reversible button folding system
- Octagonal elliptical fork with M-LOK® system, integrated one-piece 20 MoA top rail and integrated one-piece rail for mounting a bipod according to STANAG 4694/Mil std 1913
- Ergonomic, interchangeable zero-angle grip for standard AR platform
