- Retractable monopod with quick position adjustment and fine adjustment, and insulated cheek piece.
- Single-feed, single-stack 10-round magazine
- Octagonal elliptical fork with M-LOK® system, an integrated one-piece 20 MoA top rail and an integrated one-piece rail for mounting a bipod according to STANAG 4694/Mil std 1913.
- 20 MoA action rail according to STANAG 4694/Mil std 1913
- Comes with Explorer Cases carrying case, user manual and welcome kit.

The Gladio Small Bore from Victrix Armaments is the ideal rifle for instructors, special forces and shooters who want to master the fundamentals of long-range shooting. Designed around a single-piece aircraft aluminum chassis, it guarantees robustness and stability, two essential qualities for progressing in tactical disciplines.

Its cold-hammered stainless steel barrel provides exceptional durability and consistent shots, session after session. The smooth locking system allows for fast and secure reloading, faithfully reproducing the feel of a tactical-caliber rifle.

Its stock, adjustable in length, cheek height and inclination, allows for a precise adjustment to each shooter. The integrated Picatinny rail facilitates the installation of accessories such as shooting scopes, bipods and night vision devices, essential for realistic training.

Using a .22LR caliber, the Gladio Small Bore reduces the cost and logistics of shooting sessions while maintaining the high standards of tactical rifles. Whether for precision practice or to refine your shooting position, this rifle is an essential ally for progress.
