Designed to excel in the most demanding tactical environments and missions, the Toor Knives Heavy Metal Tomahawk is a powerhouse of precision. Its rugged high-carbon steel head is heat-treated to provide long-lasting sharpness and unmatched impact resistance.

Its textured carbon fiber handle ensures a firm and comfortable grip, even in wet or dusty conditions. The tool's perfectly balanced weight allows for powerful strikes while providing exceptional control for precise cuts and perforations.

Built for the toughest jobs, it's ideal for clearing, survival, tactical missions and rescue operations. With its unique design and premium construction, the Heavy Metal Tomahawk is a trusted tool for professionals and outdoor enthusiasts alike.

Highlights :

- D2 steel for exceptional strength
- High quality design and finishes
- Made in the USA, by a veteran-owned company

Technology :

- TDT: multiple heat treatment and thermal normalization outside oxygen and cryogenic finishing to harden the external austenitic steel. The guarantee of an ultra-regular molecular structure and maximum hardness.
- MicraCoat surface treatment: Maximum anti-corrosion protection thanks to a thermal multi-layer application. Minimal thickness for exceptional protection.
- Dynamic Fluting Handle: a multi-axial sculpted structure that ensures both comfort of grip and perfect knife grip.
