The Jank Shank W from Toor Knives is designed for missions where stealth and efficiency are paramount. Its Wharncliffe blade is made of CPM M4 steel, renowned for its wear resistance and edge retention, and features a glare-reducing black SOCOM finish for optimum stealth. The textured black G-10 handle offers superior ergonomics, ensuring a firm and comfortable grip, even with gloves or in wet conditions.

With an overall length of 7 inches and a weight of 4.3 ounces, this knife is easy to carry and discreet. It comes with a form-fitting Kydex sheath, ensuring secure transport and quick access, compatible with MOLLE systems for easy integration into your tactical gear.

Whether you are a security professional, military personnel or outdoor enthusiast, the Jank Shank W is a reliable and high-performance tool, ready to accompany you in all your missions.

Technology :

- TDT: multiple heat treatment and thermal normalization outside oxygen and cryogenic finishing to harden the external austenitic steel. The guarantee of an ultra-regular molecular structure and maximum hardness.
- MicraCoat surface treatment: Maximum anti-corrosion protection thanks to a thermal multi-layer application. Minimal thickness for exceptional protection.
- Dynamic Fluting Handle: a multi-axial sculpted structure that ensures both comfort of grip and perfect knife grip.
