The latest edition to the Toor Knives family of axes is the F13 Tommy, paying homage to the "Filthy Thirteen" of the 506th Parachute Infantry Regiment of the 101st Airborne Division.

Inspired by the legendary "Filthy Thirteen", the Toor Knives F13 Tommy Tomahawk combines traditional Native American tomahawk design with modern tactical features. Its 5.5-inch D2 steel head and 7-inch green G10 handle provide the perfect balance of power and precision, making it an indispensable tool for breaching and tactical operations.

- Overall length 11.0"
- Head length 5.75
- Handle length 9.0
- Handle material G10
- D2 steel
- Blade thickness 0.25
- Hardness 57-59 Rockwell
- Weight 1.3 lbs

The F13 Tommy Tomahawk from Toor Knives is designed to meet the needs of professionals looking for a versatile and robust tool. Its 5.5-inch head made of D2 steel, known for its hardness and resistance to wear, has a 90-degree tip ideal for breaching, as well as an elongated rear tip for increased effectiveness when striking. The 7-inch handle made of green G10, a composite material known for its durability and weather resistance, has a geometric texture ensuring a firm and comfortable grip, even in harsh conditions.

At 9 inches overall length and 1.1 pounds, the F13 Tommy Tomahawk is compact enough for easy carry while still providing the mass needed for powerful strikes. Each tomahawk is made in the USA and uniquely serialized, ensuring authenticity and craftsmanship. It comes with a custom-molded black KYDEX® sheath, ensuring secure transport and quick access during operations.

Whether you're a law enforcement professional, military member, or outdoor enthusiast, the F13 Tommy Tomahawk is designed to accompany you in the most demanding situations, combining tradition and innovation for optimal performance.

Technology :

- TDT: multiple heat treatment and thermal normalization outside oxygen and cryogenic finishing to harden the external austenitic steel. The guarantee of an ultra-regular molecular structure and maximum hardness.
- MicraCoat surface treatment: Maximum anti-corrosion protection thanks to a thermal multi-layer application. Minimal thickness for exceptional protection.
- Dynamic Fluting Handle: a multi-axial sculpted structure that ensures both comfort of grip and perfect knife grip.
