Directs gas and flash of shots forward

- Machined from 4140 Chrome Steel Alloy
- Thread 1/2x28
- For 5.56 / 9mm caliber
- Supplied with crush washer

The Flash Can compensator allows the gas and flash of shots to be redirected forward.

It is of considerable interest for short-barreled weapons when shooting in closed environments. Indeed, the blast caused by the shots will be directed forward, avoiding any inconvenience for neighboring shooters.
